COVID-19 Update Family Fee Waiver Extended

Due to the ongoing COVID-19 pandemic and concerns brought forward regarding the collection of family fees, the California Department of Education (CDE) was able to work with the Legislature and Administration on a solution to waive family fees for July and August 2020.

This is to notify providers and parents that **family fees for the months of July and August 2020 have been waived.**

Families are not required to pay fees for July and August and providers must immediately suspend collecting any family fees.

Providers who have already collected the family fee for July, should refund the family. Please cross off and initial for fees already collected or enter zero on the July attendance record before submitting for reimbursement. CDA will reimburse providers without deducting family fees for July and August.

CDA is awaiting further guidance from CDE on the implementation of the family fee waivers and will notify families and providers once more information has been received. In addition, it is anticipated the Legislature and Administration will address family fees in August with additional budget actions.

Sincerely,

Child Development Associates
